

Frontend UI Test

In the current test you'll need to build this Component, you can find all the relevant details in Figma.

<https://www.figma.com/file/EDLSzWC1wWLLOZzdD74Ojx/FOR-DEV?node-id=0%3A1>

Notes:

1. Need to build the desktop component that you'll find on the left like the image attached.
2. Need to use React / Typescript
3. For the Rating stars and the score use:
4. Bonus: Use styled components

<https://ant.design/components/progress/>

<https://ant.design/components/rate/>

4. All sizes, margins, paddings, shadows, borders should be exactly the same as in sigma (As much as you can.)

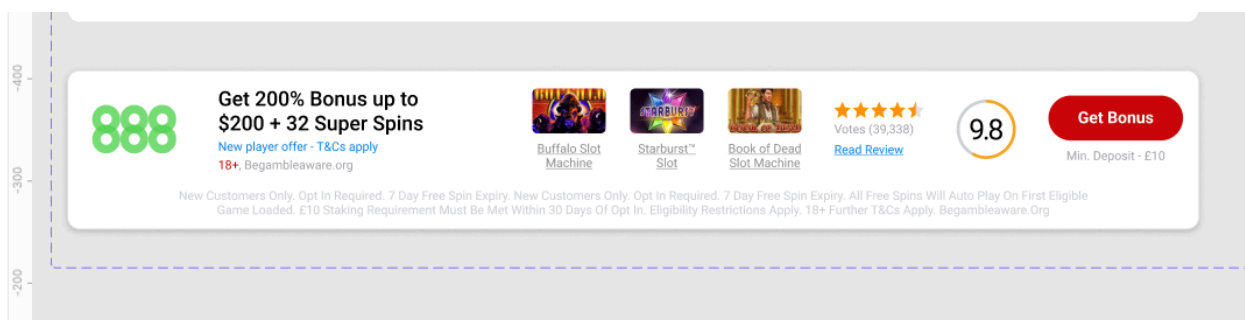

Good luck

You can start your project with:

`npx create-react-app my-app --template typescript`

Or:

`yarn create react-app my-app --template typescript`

Attached providers.json file with all relevant data.
